

October 7, 2009

To Whom It May Concern:

As the Superintendent of the East Syracuse Minoa Central School District, I am writing this letter to support and recommend the services of Appel Osborne Landscape Architecture.

Our District has benefited from the professional expertise and experience of Peter Osborne in the initial stages of the development of our EXCEL project and the professional knowledge, capability and skills of Tim Bonaparte in the design, selection and installation of our new turf field. Our experience with these two individuals and Appel Osborne employees throughout the project has been very positive. They provided excellent, timely and valuable information for decision-making. In addition, they are consumer-friendly and service oriented in providing the consumer with opportunities to see available products and talk directly with industry specialists and vendors. They listened to our priority needs and provided excellent recommendations based on desired consumer outcomes. During the development and implementation phases they were available for public presentations and business meetings in order to provide optimal communications for all stakeholders involved in the process. Throughout the project the service and follow-through of Appel Osborne has been exemplary.

I am available for specific or further information at (315) 434-3012. On behalf of the East Syracuse Minoa Central School District, I strongly recommend Appel Osborne for consideration as premier Central New York landscape architects.

Sincerely,

Dr. Donna J. DeSiato  
Superintendent of Schools
